AUDIT REPORT

https://printsoftdriver.com

NOT READY / CRITICAL FAILURES

APR 27, 2026 · 12:52

98	7	1
PASSED	WARNINGS	FAILED

APPROVAL CHANCE

2% VERY LOW

Disallowed content detected — Microsoft Ads will reject this and may permanently suspend the account.

REJECTION PROBABILITY

98% VERY HIGH

1 disapproval category triggered.

Likely Disapproval Reasons

CRITICAL

Scareware / fake alerts

Fake virus warnings and scareware lead to permanent suspension.

PAGE TO FIX: https://printsoftdriver.com

FOUND ON PAGE: Failed on 6 pages: /driver-store-cleanup.html, /driver-store-explained.html, /error-code-28-explained.html (+3 more) Scareware language detected (fake virus/error/security alerts)

HOW TO FIX

- Remove all fake error messages, virus warnings, and security alerts. Microsoft permanently suspends accounts for scareware.

TRIGGERED BY: No scareware or fake error messages

ESTIMATES BASED ON MICROSOFT ADS POLICY. FINAL DISAPPROVAL DECISIONS ARE MADE BY MICROSOFT EDITORIAL REVIEW.

Per-Page Breakdown

135 OF 135 PAGES SCANNED

Site-wide score above is the worst page's score. Microsoft reviews each landing page individually — fix the failing pages below before targeting them in your campaigns.

Technical & Infrastructure

21 pass 1 warn

HTTPS enforced

Final URL uses HTTPS

How to fix

Configure your server to redirect all HTTP traffic to HTTPS using a 301 redirect.

Valid SSL certificate

SSL certificate appears valid (page loaded over HTTPS)

How to fix

Install a valid SSL certificate from a trusted CA (e.g., Let's Encrypt).

HTTP status code is 200 OK

```
HTTP 200
```

How to fix

Ensure your landing page returns HTTP 200. Pages returning 4xx/5xx errors will be rejected by Microsoft Ads.

Fewer than 3 redirects

```
Warning on page: /
1 redirect(s) detected
```

How to fix

Reduce redirect chains. Each redirect adds latency and may lose tracking parameters.

HTTP → HTTPS redirect

```
Page served over HTTPS
```

How to fix

Set up a 301 redirect from http:// to https:// at the server level.

No mixed content

```
0 potential HTTP (non-HTTPS) reference(s) found in HTML
```

How to fix

Update all resource URLs (images, scripts, stylesheets, fonts) to use HTTPS.

Page loads in under 3 seconds

```
Page loaded in 0.34s
```

How to fix

Optimize images, enable compression (gzip/brotli), minimize JS/CSS, use a CDN.

Mobile viewport meta tag present

```
Viewport meta tag found
```

How to fix

Add <meta name="viewport" content="width=device-width, initial-scale=1"> to your <head>.

Security headers present

```
CSP: ✓, X-Frame-Options: ✓, X-Content-Type-Options: ✓
```

How to fix

Add security headers: Content-Security-Policy, X-Frame-Options, X-Content-Type-Options.

Cache-Control header present

```
Cache-Control: public, max-age=0, must-revalidate
```

How to fix

Add a Cache-Control header to improve performance and CDN behavior.

robots.txt exists

```
robots.txt found (115 bytes)
```

How to fix

Create a robots.txt at your domain root and ensure it doesn't block the ad landing page URL.

sitemap.xml exists

```
sitemap.xml found (22686 bytes)
```

How to fix

Create an XML sitemap at /sitemap.xml and submit it to Bing Webmaster Tools.

robots.txt does not block Bingbot

```
robots.txt does not block Bingbot
```

How to fix

Update robots.txt to allow Bingbot. Microsoft Ads requires that landing pages are crawlable by Bingbot.

Favicon present

```
Favicon link tag found
```

How to fix

Add <link rel="icon" href="/favicon.ico"> to your <head>.

Character encoding declared

```
Character encoding declared
```

How to fix

Add <meta charset="UTF-8"> to the <head> of your page.

HTML5 doctype declared

```
<!DOCTYPE html> found
```

How to fix

Add <!DOCTYPE html> as the first line of your HTML document.

Reasonable JavaScript bundle count

```
1 external script(s) loaded
```

How to fix

Reduce the number of external JavaScript files. Heavy script loading slows down the page and hurts landing-page experience scoring.

No duplicate HTML element IDs

```
All element IDs are unique
```

How to fix

Each HTML element ID must be unique. Duplicates break accessibility tools and JavaScript references.

No deprecated HTML tags

```
No deprecated HTML tags detected
```

How to fix

Remove deprecated tags like <font>, , <marquee>, <blink>. Use CSS instead.

Limited inline styles

```
5 inline style attribute(s) found
```

How to fix

Move inline styles to external stylesheets for better performance and maintainability.

Balanced HTML structural tags

```
All structural tags balanced
```

How to fix

Ensure every , <section>, <article>, etc. has a matching closing tag. Unclosed tags break layout and accessibility.

Reasonable HTML page weight

```
HTML document is 110 KB
```

How to fix

Keep HTML payload under 500 KB. Large HTML hurts mobile load times and landing-page experience.

SEO & Bing Indexability

11 pass 2 warn

Title tag present and optimal length (50–60 chars)

```
Warning on 46 pages: /corsair-peripheral-drivers.html, /debian-d
river-overview.html, /dma-and-drivers.html (+43 more)
"Premium Peripheral Driver and Software Overview | PrintSoftDriv
er" (65 chars)
```

How to fix

Write a title between 50–60 characters that clearly describes the page and includes keywords.

Meta description present and optimal length (140–160 chars)

```
Warning on 86 pages: /acpi-and-drivers.html, /compare-driver-ver
sions.html, /card-reader-driver-overview.html (+83 more)
"What Acpi describes, how drivers use it for power management, a
nd why Bios table..." (110 chars)
```

How to fix

Write a compelling meta description between 140–160 characters.

Exactly one H1 tag

```
1 H1 tag(s) found
```

How to fix

Use exactly one H1 tag that describes the primary topic of the page.

Logical heading hierarchy

```
H1: 1, H2: 14, H3: 57
```

How to fix

Use headings in order: H1 → H2 → H3. Don't skip heading levels.

All images have alt attributes

```
0 image(s) missing alt attributes out of 30 total
```

How to fix

Add descriptive alt attributes to all <img> tags for accessibility and SEO.

JSON-LD structured data present

```
JSON-LD structured data found
```

How to fix

Add Organization or WebSite JSON-LD schema to help search engines understand your site.

Open Graph tags present

```
og:title: ✓, og:description: ✓, og:image: ✓
```

How to fix

Add og:title, og:description, og:image, and og:url meta tags.

Canonical link tag present

```
Canonical: https://www.printsoftdriver.com/
```

How to fix

Add <link rel="canonical" href="https://yourdomain.com/page/"> to your <head>.

HTML lang attribute present

```
lang="en"
```

How to fix

Add a lang attribute to your <html> tag, e.g., <html lang="en">.

URL is lowercase and hyphenated

```
URL path: /
```

How to fix

Use lowercase, hyphen-separated URL paths (e.g., /my-product-page instead of /MyProductPage).

Content rendered server-side (visible to Bingbot)

```
Server-rendered content present (7912 words in <body>).
```

How to fix

Use Server-Side Rendering (SSR) or pre-rendering. Bingbot's JavaScript rendering is limited — pages that render entirely in the browser are often not indexed, which means your ads won't run.

Title tag is not keyword-stuffed

```
Title shows natural word distribution
```

How to fix

Write a natural, descriptive title. Avoid repeating the same keyword multiple times in your <title> tag.

Meta keywords tag is not stuffed

```
3 meta keywords declared
```

How to fix

The meta keywords tag is largely ignored by search engines and should contain at most 5–10 truly relevant terms — or be omitted entirely.

Content Compliance

35 pass 1 fail

No adult/sexually explicit content

No adult content keywords detected

How to fix

Remove adult content. Microsoft Ads prohibits adult and sexually explicit content.

No drugs or drug paraphernalia

No drug-related content detected

How to fix

Advertising for recreational drugs or drug paraphernalia is prohibited by Microsoft Ads.

No weapons, firearms, or ammunition

No weapon-related content detected

How to fix

Advertising for weapons, firearms, and ammunition is prohibited by Microsoft Ads.

No tobacco or vaping products

No tobacco/vaping content detected

How to fix

Advertising for tobacco products and vaping/e-cigarette products is prohibited by Microsoft Ads.

No malware, phishing, or unwanted software indicators

```
No malware/phishing indicators detected
```

How to fix

Remove any content related to malware distribution, phishing, or unwanted software downloads.

No trafficking or exploitation content

```
No trafficking/exploitation content detected
```

How to fix

Content related to trafficking or exploitation is strictly prohibited.

No deceptive products or services

```
No deceptive product/service claims detected
```

How to fix

Remove get-rich-quick schemes, miracle cure claims, and other deceptive advertising patterns.

No piracy or counterfeit content

```
No piracy content detected
```

How to fix

Advertising for pirated content, cracked software, or counterfeit goods is prohibited.

No third-party tech support advertising

```
No third-party tech support language detected
```

How to fix

Microsoft globally banned third-party tech support advertising in 2016. You cannot advertise support for products you don't own. Accounts are permanently suspended for this violation.

No Microsoft brand terms in domain name

```
Domain does not contain Microsoft brand terms
```

How to fix

Domain names must not contain Microsoft, Windows, Office, Xbox, Bing, Outlook, or other Microsoft brand terms.

No scareware or fake error messages DEAL-BREAKER

```
Failed on 6 pages: /driver-store-cleanup.html, /driver-store-exp
lained.html, /error-code-28-explained.html (+3 more)
Scareware language detected (fake virus/error/security alerts)
```

How to fix

Remove all fake error messages, virus warnings, and security alerts. Microsoft permanently suspends accounts for scareware.

No dangerous executable download links

```
No .exe, .msi, .scr, .bat, or .cmd download links detected
```

How to fix

Remove all .exe, .msi, .scr, .bat, and .cmd download links. Microsoft treats these as high-risk on third-party sites.

No remote access tool downloads or widgets

```
No remote access tools detected on page
```

How to fix

Remove all remote access tool downloads (TeamViewer, AnyDesk, LogMeIn, etc.) and 'connect to technician' widgets from landing pages.

No third-party credential harvesting forms

```
No credential harvesting patterns detected
```

How to fix

Do not embed login forms for Microsoft, Google, Apple, or other third-party services on your landing page.

No unverifiable trust badges or endorsement claims

```
No unverifiable trust badges detected
```

How to fix

Remove trust badges (Norton, McAfee, BBB, 'As seen on CNN') unless they link to a valid, active verification page. Fake badges cause instant rejection.

No unauthorized Microsoft brand impersonation

```
No Microsoft brand logo images detected
```

How to fix

Remove all Microsoft, Windows, Office, Xbox, and Surface logos and brand marks. Only Microsoft and authorized partners may display these.

No urgent call prompts or phone numbers in error messages

```
No urgent call prompts or phone-in-error patterns detected
```

How to fix

Remove urgent call prompts ('Call Now!', 'Immediate Help!', '24/7 Emergency'). Phone numbers near error messages are a permanent suspension trigger.

No gift card, wire transfer, or crypto payment requests

```
No scam payment method patterns detected
```

How to fix

Remove gift card, wire transfer, money order, and cryptocurrency payment options. These are universal scam signals that trigger automatic suspension.

Gambling content (requires certification)

```
No gambling terms detected
```

How to fix

Gambling advertising requires Microsoft Advertising certification and is restricted by market. Contact Microsoft Ads support to apply.

Alcohol content (restricted by market)

```
No alcohol sales terms detected
```

How to fix

Alcohol advertising is restricted by market. Must not target minors. Verify compliance with local laws and Microsoft Ads alcohol policy.

Healthcare claims include required disclaimers

```
Health terms found: diagnose, symptom (NO disclaimer found)
```

How to fix

Add medical disclaimers: 'Consult a healthcare professional. This is not a substitute for medical advice.' Healthcare ads are restricted.

Financial claims include required disclaimers

```
No financial claim terms detected
```

How to fix

Add disclaimers: 'Past performance does not guarantee future results. Investments involve risk of loss.' Finance ads are restricted.

Cryptocurrency content (requires certification)

```
No cryptocurrency terms detected
```

How to fix

Cryptocurrency advertising requires Microsoft Advertiser certification. Contact Microsoft Ads support to apply.

Dating content (restricted by market)

```
No dating service terms detected
```

How to fix

Dating and companionship advertising is restricted. Must not promote sexual services. Review Microsoft Ads dating policy.

No unsubstantiated superlatives

```
No prohibited superlatives detected
```

How to fix

Remove or substantiate claims like '#1', 'best', 'guaranteed', 'miracle'. Provide evidence or remove them.

No prohibited urgency language

```
No prohibited urgency patterns detected
```

How to fix

Microsoft Ads prohibits urgency language such as "do this immediately," "supplies are running out," or "offer won't last."

No excessive capitalization

```
No excessive capitalization detected
```

How to fix

Use proper grammatically correct capitalization. Avoid random or excessive caps like BIG SALE or AmAzinG.

No competitor trademark misuse in H1/Title

```
No trademark misuse detected in title/H1
```

How to fix

Do not use competitor trademarks (Microsoft, Google, Amazon) in your H1 or title tag unless you are that brand.

Business name visible on page

```
Business/brand name visible: "PrintSoftDriver – Device Driver Ed
ucation &amp; Ov"
```

How to fix

Make sure your brand/business name is clearly visible, ideally in the page title or H1.

No misleading calls-to-action

```
No misleading CTAs detected
```

How to fix

Remove misleading CTAs. Microsoft Ads prohibits deceptive calls-to-action like fake prize notifications.

Affiliate / sponsored content disclosed (when monetized links present)

```
No affiliate / referral links detected on page
```

How to fix

If your page contains affiliate or sponsored links, you must clearly disclose the material connection (FTC + Microsoft Ads Information Integrity policy). Add a visible 'Affiliate disclosure' or 'We may earn a commission' notice.

No signs of AI-generated content

```
Content shows natural variation (377 sentences analyzed)
```

How to fix

Add personal voice, varied sentence lengths, and concrete examples. Microsoft penalizes pages with low-quality, mass-produced content.

No duplicated paragraphs

```
No duplicate sentences detected
```

How to fix

Remove duplicate content. Microsoft Ads quality scoring penalizes pages with repeated or boilerplate paragraphs.

No spam or auto-generated content patterns

```
No spam patterns detected
```

How to fix

Reduce link density and remove repeated/auto-generated text patterns. Spam-style pages are rejected by Microsoft Ads.

Sufficient content depth

```
7919 words of body text (good depth)
```

How to fix

Add at least 250 words of meaningful, original content. Thin pages fail landing-page experience scoring.

No keyword stuffing

```
No keyword stuffing detected (analyzed 5155 content words)
```

How to fix

Reduce keyword repetition. Microsoft Ads policy prohibits keyword stuffing — write naturally for users, not search engines.

Required Pages & Contact Info

5 pass 2 warn

Privacy Policy linked

```
Privacy policy link found
```

How to fix

Add a visible link to your Privacy Policy. Microsoft Ads requires an accessible privacy policy on all landing pages.

Terms of Service linked

```
Terms of service link found
```

How to fix

Add a link to your Terms of Service.

Contact page linked

```
Contact page link found
```

How to fix

Add a link to a contact page with your business address, phone number, or email.

About page linked

```
About page link found
```

How to fix

Add a link to an About page explaining who you are and what you do.

Phone number visible on page

```
Warning on 135 pages: /, /about.html, /acpi-and-drivers.html (+1
32 more)
No phone number found on page
```

How to fix

Display a real contact phone number to build trust with visitors.

Email address visible on page

```
Email address detected on page
```

How to fix

Display a contact email address to build trust.

Refund/Return policy linked (e-commerce)

```
Warning on 2 pages: /dkms-explained.html, /third-party-driver-updaters.html
E-commerce detected but no refund policy link found
```

How to fix

For e-commerce sites, add a visible link to your Refund and Return Policy.

Consent & Privacy

4 pass 2 warn

Cookie consent mechanism detected

```
Cookie consent mechanism detected
```

How to fix

Add a GDPR/CCPA compliant cookie consent banner. Consider using a CMP like OneTrust, Cookiebot, or CookieYes.

Cookie banner has Reject option

```
Reject/decline option found in cookie banner
```

How to fix

Add a 'Reject All' button with equal visual prominence to the 'Accept' button in your cookie banner.

Microsoft UET tag detected

```
Warning on 135 pages: /, /about.html, /acpi-and-drivers.html (+1
32 more)
No Microsoft UET tag detected
```

How to fix

Install the Microsoft Universal Event Tracking (UET) tag to track conversions.

Google Consent Mode v2 (if GA4 used)

```
Consent Mode signals detected
```

How to fix

Implement Google Consent Mode v2 if using GA4 to comply with EU consent requirements.

Privacy Policy mentions Microsoft/Bing tracking

```
Warning on 135 pages: /, /about.html, /acpi-and-drivers.html (+1
32 more)
Privacy policy may not mention Microsoft/Bing tracking
```

How to fix

Update your Privacy Policy to explicitly mention Microsoft Advertising tracking technologies.

"Do Not Sell or Share" link (CCPA)

```
"Do Not Sell" link found
```

How to fix

For California visitors, add a "Do Not Sell or Share My Personal Information" link per CCPA requirements.

Landing Page Quality

13 pass

Final URL domain matches original (no cloaking)

```
Final URL stays on the same domain: www.printsoftdriver.com
```

How to fix

The final landing page domain must match the domain in your ad. Redirecting to a different brand/domain is prohibited (www ↔ non-www on the same domain is fine).

No high density of advertising

```
Ad iframes: 0, Ad scripts: 0
```

How to fix

Landing pages must not display a high density of advertising above the fold or consist primarily of ads/links. Content should provide value, not solely display ads.

Page has sufficient, substantive content

```
Approximately 7919 words of text content detected
```

How to fix

Landing pages must not contain sparse or limited content. Add substantive, relevant text content that provides value to users.

No auto-playing video with sound

```
No unmuted auto-playing video detected
```

How to fix

Add the muted attribute to all autoplay videos: <video autoplay muted>

No browser manipulation (resize, prompt-spam, back-button hijack)

```
No browser manipulation detected
```

How to fix

Do not resize browser windows, spam beforeunload prompts, or trap users with popstate re-pushes.

No full-page modal/interstitial on load

```
No obvious full-page interstitial detected
```

How to fix

Avoid showing full-page pop-ups or interstitials immediately on page load. Do not delay or obstruct user access to content.

Primary call-to-action visible

```
Call-to-action button/link detected
```

How to fix

Ensure your primary call-to-action is clearly visible on the page.

No unnecessary sensitive data collection

```
No unnecessary sensitive data collection detected
```

How to fix

Do not require the entry of sensitive personal data (SSN, passport, etc.) unnecessary to provide the service.

Basic accessibility attributes present

```
ARIA attributes detected
```

How to fix

Add aria-labels, roles, and alt text to improve accessibility for users with disabilities.

Page is not set to noindex

```
Page allows indexing
```

How to fix

Remove the noindex meta tag. Microsoft Ads requires landing pages to be indexable by Bing. Non-indexed sites are disallowed.

No placeholder or under-construction content

```
No placeholder text detected
```

How to fix

Replace all placeholder text with real content before running ads. Pages not functioning properly will be rejected.

Landing page opens to working content (not 'unavailable' / 404 soft-fail)

```
No 'page unavailable' / soft-404 patterns detected
```

How to fix

Microsoft Ads rejects landing pages that 'do not open properly or consistently result in a product not available message'. Fix dead links or remove the URL from your campaign.

CTA buttons link to a real destination

```
0 working CTA(s), 0 dead CTA(s) (href="#" / javascript:void)
```

How to fix

Every 'Buy Now' / 'Sign Up' / 'Get Started' button must link to a real destination. Dead-link CTAs (href="#") violate the relevance and quality policy.

Hosting & Site Intelligence

9 pass

Custom domain (not a free hosting subdomain)

```
Domain www.printsoftdriver.com is a custom domain
```

How to fix

Use a custom domain (yourbrand.com) for Microsoft Ads landing pages instead of a free hosting subdomain.

Site is live (no sleep / spin-down page)

```
Site is responding normally
```

How to fix

Your application is not running. Use a production hosting tier (always-on / autoscale) to ensure 100% uptime for your ad landing page.

No hardcoded API keys/secrets in HTML

```
No obvious secret patterns detected in HTML
```

How to fix

Never hardcode API keys or secrets in client-side code. Use environment variables server-side only.

Production-grade deployment

```
Custom domain detected — likely properly deployed
```

How to fix

Use a production hosting tier (always-on, autoscale, or reserved VM) to ensure 100% uptime for your ad landing page.

Hosted IP address

```
216.150.16.129, 216.150.1.129 — United States, Walnut
```

How to fix

Informational — confirms where the landing page is physically served from.

Hosting IP not flagged

```
IP / hosting provider does not match known suspicious patterns
```

How to fix

Move the landing page to a reputable hosting provider. VPN/proxy IPs and bulletproof hosts are commonly rejected by Microsoft Ads.

Hosting provider

```
Vercel, Inc (AS16509 Amazon.com, Inc.) • CDN: Vercel Edge
```

How to fix

Informational — useful for attribution and IP-reputation diagnostics.

Domain registrar

```
Registrar information unavailable
```

How to fix

Informational — confirms domain ownership chain.

Detected website technology

```
Built with: Bootstrap • Server: Vercel
```

How to fix

Informational — useful for diagnosing landing-page rendering issues.
